SUMMARY

Full-stack web development student (React, Node.js, Next.js, MongoDB, MySQL) with hands-on experience shipping production-deployed applications, real-time systems, and REST APIs. Seeking a Software/Web Development Internship to apply full-stack and problem-solving skills in a fast-paced engineering team.

EDUCATION

Cambridge Institute of Technology <i>B.E. in Computer Science & Engineering</i>	2024 – 2028	Bengaluru, Karnataka

EXPERIENCE

Web Development Intern — Unlox Job Bridge Program (with Outpro India)	Jun 2026
- Shipped a new full-stack project every week across a project-based web development program, earning the Unlox Edge Certification - Engineered a MERN-stack social media application with real-time chat using Socket.IO, MongoDB Atlas, Express, and React - Developed a Blog REST API with Node.js/Express and a React e-commerce app with React Router and Context API for state management - Built a React To-Do & Notes app plus additional JavaScript/DOM-based mini projects as part of the program curriculum

PROJECTS

TactiTrack-C2 — Real-Time Military Command Dashboard
HTML · CSS · JavaScript · Node.js · Socket.IO · MongoDB · Leaflet.js · JWT

- Engineered a full-stack real-time tactical dashboard for military unit tracking with WebSocket-based live GPS updates every 3 seconds
- Implemented Dijkstra's algorithm for optimal unit routing on a weighted graph, computing shortest path with ETA in $O((V+E) \log V)$
- Designed JWT-based authentication with Commander/Operator role-based access control
- Deployed to production on Netlify with automated CI/CD redeploys via GitHub integration

DevMind AI — AI-Powered Developer Tool
TypeScript · React · Node.js · PostgreSQL · REST API

- Architected a full-stack TypeScript application featuring AI integration, real-time updates, and a REST API backed by PostgreSQL
- Implemented real-time data synchronization with a clean, modular component architecture for long-term maintainability

[GitHub](#)

Survey Response Score Modeling
Python · Jupyter Notebook · Data Analysis

- Modeled survey response scores using demographic and psychometric factors, applying data cleaning, feature analysis, and statistical modeling in Python

[GitHub](#)

Outpro India — Company Marketing Website
Next.js 13 (App Router) · React 19 · TypeScript · Tailwind CSS · shadcn/ui

- Built and deployed a production marketing website with dynamic service pages, a contact form API route, and a Mailchimp-integrated newsletter signup
- Implemented CRM lead-forwarding for HubSpot and Zoho; documented full handover and Vercel deployment process
